A vogue of velvets

Fashion has decreed that this shall be the most brilliant dress season for a century. The keynole of DRESS is to be "luxuriousness."

The Fabric shall be that of royalty—"VELVET." No other fabric gives itself so readily to the prevailing modes as velvet with its suppleness of texture, its charm of weave, its poetry of color.

History---Poetry---Romance

This Is the Last Day of Summer--Are You Ready for the Fall?

Time Wasted Is a Part of

Your Life Thrown Away

A half hour dwindled away every day counts up 182½ hours in a year, which amounts to more than three full weeks of eight-hour working days.

An hour frittered away every day in gossip or useless conversation would slip out of your life each year thirty-nine working days, reducing your year to ten and a half months instead of twelve.

This store is a great time-saver, compared with the old-time way of having to walk to a half dozen or more places to supply daily needs.

Just Think!

Present-day shopping is possible in one safely-built and safely equipped building with all modern safety appliances.

An extensive and comprehensive, constantly freshened stock, where everything of the best grades is fairly well kept up, considering the inevitable overdrafts of some day's sales, the only absence from stock heim the now and worthly the stock being the poor and worthless things that we do not offer our customers.

The New Dress Trimmings Are Wonderful!

You will wonder whether it is Persian, Chinese or Egyptian influence that makes so rich and beautiful this wonderful assortment of dress triammings.

Colors are not the crude, barbaric tones they were last season when Balkan was the craze, and yet the actual colors are the same, only they are toned down, enriched, more mellow, like a brilliant picture, softened and beautified by age.

And Reads—they are everwhere. Sometimes on light net,

And Beads—they are everywhere. Sometimes on light net, where they sparkle and glitter with fairylike brightness, sometimes on heavier materials, or embedded in this slik embroidery. Pendants-of-beads-or silk for sash ends are, some of them, 12 inches long.

then beautiful buckles and garnitures of brilliants glisten like diamonds and it is wonderful how much beauty they add to

agown or wrap.

But who could adequately describe so many beautiful things? Not we. The fairest thing to do is to ask you to see them.

Silk Section, Second Floor,

The New Autumn Silks Are Beautiful

The very newest of Fall Silks are gathered here lavishly and, what is more to the point, re the silks most in demand. It would take a whole page to tell you of all the wonderful new silks that are arriving

It would take a whote page to ten you or as a second most daily.

Colors verge on the extravagant, no one color or shade, however, accorded more favor than another, but every color of the rainbow being represented, from extreme light to somber dark tones. Multi-colored silks are used with happy effect as trimmings and vestings, and also in combination with plain colors.

The choice is broadly comprehensive and includes—

Proche Canton Crenes, all the fashionable.

New Crepe Faconne--trom France

With a design of flowers lightly embossed With a design of flowers lightly embossed in satin, over a background of crepe. "Faconne" means embossed or embroidered, you know. The colors are marine blue, new blue, green, cherry, taupe, wistaria, ivory and black. Double width, at \$a.50 yard. d includes—
Broche Canton Crepes, all the fashionable, new shades, double width; \$4.50 yard.
Brocaded Charmeuse Crepes; pink, yellow, blue, cream and white; \$2.25 yard.
Brocaded Crepes de Chine, blue, rose, lavender, yellow, pink, tan and other shades for day and evening wear, at \$1.00 yard.
Plain Crepes de Chine, all colors and white and black, at \$1.50 yard.

Black and Colored Dress Goods

A Magnificent Display

The popular Fabric Fashions of the season are on review here. Materials which have reached the happy medium between the too-conservative and the extreme.

Of conspicuous interest are the NOVELTIES—those rare fabrics which appear only at the commencement of a new season, and, once sold, cannot be duplicated. These weaves masterfully designed and woven, have reached new heights in beauty and daring, giving them an individuality hitherto undreamed of:

Velours de Laine Broche Eponge Broche Eponge Broche Epingle Silk-and-Wool Broche Crepe

It is decidedly a season of colors, noticeable for the revival of greens and browns, and ingenuity has devised the oldest color combinations.

The Weaves—Brocaded materials have taken fashion by storm, and are used largely in combination with plain weaves, though many handsome costumes are developed entirely of Broches. Corded Weaves are also in great demand; fabrics merging from almost invisible cord in Garbardine, through varying degrees in wool Reps, Ottoman and Bedford Cords and Whipcords.

Duvetyne (Bird's-Down) Is the Rage

Duvetyne, Duvetynel is the burden of the song. For dresses, for suits, for coats. The ward means literally soft like the down of a tiny chick. It is here in a superb quality at \$3,00 yard-56 inches wide. Beautiful street shades

Brocaded Wool Suitings, double width; beautiful color tones; \$2.50 yard.

Checked Broadcloths, with plain colors to match, for combination suits; all street shades —priced at \$1.50 and \$2.50 yard.

New and elegant coatings in rich, two-toned effects; blue and black, blue and brown, two shades of blue or all blue; 56 inches wide, at \$3,50 yard. Wool Ratines, in navy, rose, royal, green and brown; 56 inches wide, at \$2,50 yard.

Monday--The Salons of Women's Dress Have an Informal Showing

It will be simply delightful to stroll through this apparel section tomorrow. So many new things are here, so many suggestions for the wide-awake woman, so much that is beautiful and inspiring.

New Gowns, Suits, Coats, Blouses and Skirts arriving six days in the week, and something different to show you every day.

Practical Gowns for Street and Afternoon

Practical, yet this merit of being so hasn't erfered in the slightest with their artistic

quality.

Nothing could be more picturesque than certain little soft gowns of Canton crepe, taupe or blue, blouse effect, elongated shoulders, long sleeves, soft platings at neck and hand, a wide girdle of rich novelty ribbon.

Price \$8x.

Price \$35.

Another irresistibly pretty gown, ideal for afternoon or street, is of crepe de chine—the new copper shade, with trimmings of cream lace, drooping shoulders, long sleeves, girdle of same, beautifully draped skirt; priced at \$25.

at \$25.

Other crepe de chine or charmeuse gowns are little wonders of simplicity and yet they have any amount of charm, perhaps due to their dainty frilis and platings; in havy, tape, brown or black, priced at \$14.95 and \$12.50.

There's a Wonderful Charm About the New Laces

Beautiful novelties from France, Switzer-land, Germany and England clamor for first place in Fashion's rank.

Point de Long Champs, Chantilly, fine Shadow Flounces, Applique Laces of exquisitly delicate silk mesh, almost too fine to see, with rich designs appliqued on: one particularly pretty flounce is of cafe au laft shade, with design worked in white; there are also beautiful Princess Laces; fine cotton Shadow or Graguele Laces with hexagon or diamond musch. Laces in all widths from 5 inches up to flouncings 27 inches wide. We can hardly more than alm at their richness and beauty, but with the weath to show them to you Monday—or any day this seems. more than hint at but we want to show them to you mount or any day this week.

First Floor, Left Aisle.

New Autumn Suits

It takes only a day or two of bright, crisp weather to set women thinking of autumn clothers needs.

Almost the first thing to be thought of is the Suit.

For those who want the simpler tailored suits, we have literally hundreds between \$25 and \$05.

We want to show you particularly tomorrow the—

Wooltex Suits at \$25, \$35, \$50

In all the fashionable materials, beautiful in cut and finish, and the wonderful features of tailoring and style that have made Wooltex Suits favorites with so many women.

A Woman's Coat This Season Is a Matter of Material as Much as Style.

Rich, beautiful materials have gone into the making of Women's Coats, and they are here in every style that one could want. Elegant for dress, ideal coats for the wom-an who motors, practical coats for general service and comfort. Some especially interesting Wooltex mod-els for display Monday, at \$20, \$25, \$35, \$40 and \$50.

The New Ribbons in Bayadere Stripes

You will see the stripes first, then the ribbons; but you are bound to see their beauty
all the time, and to think of what delightiul
sashes, girdles, hat trimmings and even little
vests to wear under the coat. They are priced
from goc yard up.

Beautiful brocaded velvet Ribbons for girdles or for hat trimmings, in wonderfully rich

The Witchery of Dainty Neckwear

Brery woman knows what it mean—"the witchary of dainty sac-wear." A soft, pretty frill, a knot of lace here and there, a savey bow dainty facha, all add to the charm of alturing feministry. Perhaps these Medici Collars were largely responsible for the ci-and witsouncess of the lovely Catherin, for whom they are nam-Anyway, they are very fascinating and are a delightful access: to the atyle of rail and grown altie.

The Balkan influence will continue to be noticeable in the Autumn fashions as this smart two one as this smart two piece suit designed by Cheruit denotes. The costume is of a soft ma-terial called duvetyne, the narrow skirt is slightly draped, and the coat is cut in the Balkan mili-tary style, which is par-

ticularly good on youthful figures. The cross belts over

the shoulders are especially smart. In the window of the shop two extremely handsome models are shown, the first is a black and white novelty velvet gown with elaborately embroidered vest which is so cut as to give the effect of a sash. The coar is in cutaway effect and the skirt narrow and clinging. clinging.

Some writer has said that we need the beautiful in our every day lives in order that our minds may develop properly.

What that we can carry about us from day to day is more beautiful than the diamond? Then why not spend a little less for things that are so soon out of date and worthless, and invest in a gem that will last you a life time and can then be handed down for generations to loved ones?

In time of need there is no article that can be disposed to such advantage as the diamond, and for this reason also it pays to spend less for the things swiftly passing away and put more in something that is ever new and of world-wride value.

Specializing in diamonds, we are prepared to give the Specializing in diamonds, we are prepared to give the Specializing in diamonds, we are prepared to give the special pay and being weighed and graded by an expert you can make no mistake as to weight and quality of diamonds secured from us. We always give full information as to the merits or demerits of any stone we sell.

Where it is not convenient to pay all cash we have devised our partial payment plan, whereby one-fifth can be paid down and the remainder arranged in monthly notes bearing annual interest at an average of 4½ per cent.

We give the very best attention to our mail order customers, and as we send goods on approval, paying the express charges both ways, no risk is run in ordering from a distance.

Our book No. 7 gives full information as to our plan of grading and selling. We will be glad to mail you a copy.

Tignall, Ga., with a new railroad, together with the Atlanta Spirit, working night and day to complete the road, and to move the ten,thousand bales of cotton being brought to Tignall from Wilkes, Lincoln and Oglethorpe counties, 'and Lincoln county without a foot of railroad" in it, is creating a volume of business that the local merchants and business men cannot take care of, and the following is needed here in Tignall: Newspaper, Hotel, Furniture Store, Hardware Store, Dry Goods Store, Gents' Furnishing, Garage, Livery Stable, Lawyer, Dentist, Oil Mill, Warehouse, Brick Plant, Jugware Factory (plenty of clay), Guano Factory, Knitting Mill, Millinery Store, Cigar Factory, Lumber Yard, Ice and Coal Dealer, Drug Store and numerous other enterprises.

HEART TO HEART TALK

Tignall has been 11 miles from any railroad, until now the Elberton and Eastern is just reaching town. The opportunities here are beyond anyone's conception without a visit here. If you are considering a change of location or a paying investment, investigate at once. Brick buildings going up, steam shovels working day and night, gins running at full tilt, and cotton coming 20 miles, is something you don't see every day. Investigate.

Mr. Robert Sharpe has just returned from New York with a full line of imported woolens, which are now on display at 146 Peachtree Street.

Gentlemen of fashion will find full scope for their taste in the beautiful fabrics of English suitings, coatings, trouserings and vestings—an early inspection of which is cordially invited.

Observers of style will find distinctively new tendencies this season. Mr. Sharpe keeps in touch with the latest London developments and studies to give Atlanta gentlemen the most up-to-date styles, recognized as such, whether worn at home or abroad, and is recognized as one of the leading tailors and designers in this country and England.

there is no Furniture made which so aptly fits in as Life Time Furniture.

While Life Time Furniture can be had in all standard finishes, the Nut-Brown Velvet Funed Oak is most in demand, as this shade harmonizes best with other colors, and lends a particular beauty to the general furnishing scheme.

Life Time Furniture is made of Solid Quartered White Oak, not a foot of veneer being used.

Every joint receiving the least strain is fitted with a mortise and tenon—a pinned construction, which has stood from the medieval period to the present day as the acme of joint construction. Each Chair, Settee and Rocker is fitted with a removable spring cushion

seat. Only the best crucible steel springs being used.

Every seat and back cushion is covered with a special grade of Genuine

Leather selected for its soft, pliable quality.

CO-ORDINATION OR CHAOS?

In the census it is now taking of the county commissioners and road-building authorities of Georgia, the state prison commission gives definite hope of substituting coordination for the chaos by which Geor-gia's highway construction methods are now characterized. Under the law, the commission has the right to place at the dis posal of the counties four civil engineers paid by the state and in other respects to establish the equivalent of a centralized road-building authority. There is division of opinion among the commissioners as to the advisability of the course. If the counties declare for the extension of the commission's authority all its members, being men of broad views and receptive minds, will concede personal opinion and be guided by the general consensus. None of the countrist sure personal is the type of man to oppose individual convertion to the demonstrated will of the entire state. The Constitution, personally, in its good roads proggands, has always tried to keep uppermost the idea that we are building highways not for a generation, but for keeps, and to a definite plan; not for one county, but for the whole state and for posterity is well as outselves. of opinion among the commissioners as to

Every county upon the great stretch from orean to ocean realizes what it has at dollar-sand-cents stake. It knows that not only will property values and development, jump prodigiously along the artual right of way, but that a region within a radius of time prodistry of continuous as against purely local or jerk-water high-ways. Chairman Davison, for instance, in honest but not irrevocable opposition to the new plan, clies Greene county, with its twenty-one convicts and asks how it can possibly be expected to cooperate in a through highways to the neglect of its high-ways radiating from the county seat. But here is the other side. Suppose a continuous high-way is countructed from Atlanta to Augusta and that is from the county east. But here is the other side. Suppose a continuous high-way is countructed from Atlanta to Augusta and that is from the trust most radie. The chairman further fears local road squad on such a highway. In short order her streeth will be competed and ne will be in position to reap the cumulative benefit from here hand. Greene puts her road squad on such a highway, to short order her streeth will be completed and ne will be in position to reap the cumulative benefit from here hands Greene puts her road squad on such a highway, to short order her streeth will be completed and ne will be in position to reap the cumulative benefit from here hands of the continuous highway is countructed from Atlanta to Augusta and country and myored property and the continuous highway is countructed from Atlanta to Augusta and country and myored property in town best chances. Mingring has also been advanced on score of the poverty of the commission. It is best, as between the two, to let two or three supervisors go and replace them with road cantineers. The law creating the commission is doubtful, let it consult the attorner general.

The Constitution views the opportunity as too large a one to be ignored. We are building now, upon no definite plan, but helterskelter. No one expects that the whole state shall at once be grilled with good roads. But the commission can at least work toward a clean-cut program, which shall get somewhere. Every day of delay in constructing a central and uniform authority piles up bigger loss for Georgia in subricting authority piles up bigger loss for Georgia in subricty piles.

NATURE'S ETERNAL SECRET.

newpricksm. It will be remembered, for instance, this several years ago Jacques Look, and later laboratory experts in this country, established by the world with the announcement that they had produced artificial life. Yet ten years, and more, after that statement the race is still rocking along, and propagation, which is the chief business of the race, is as unsitered as in the time of Eden. Would not the ability to precisely predetermine sex reduce the race in short order to chaos? Common sense teaches that it would. There is no blinking the fact that if parents controlled the sex of their child dren, boys would predominate overwhelmingly in the birth rate the world over. The motive would be different in different countries, but the effect would everywhere he he same.

ries but the effect would everywhere he the same.

In China and Japan and gome other of the countries in the near and far east, boys are preferred to girls because of the higher status that inherited code gives the boy and the man.

In our own country the girl baby is welcomed, and there is general rejoicing with her advent. But the parent reasons: "The boy can take care of himself: he needs no aid in swimning the way of life; his sex gives him protection and self-reliance denied by nature to the girl." And, if scientific means were at hand, insidious temptation would point the way and the race would soon menace its very existence. Why? For the very patent reason that with a shrinkage of women there would be a shrinkage of mothers a innost to the dwinding point. Lessen mothers and the entire structure of civilization is threat-ened.

The secret of ser determination is locked fast in the bosom of nature, and it ever will be. Wherever else also science may probe, what processes also may disclose, this one process will remain to man a sealed book. Laws of which we have no cognizance will keep the sex balance well adjusted. They will be always operative and always beyond our control. Highest Grade, Latest Style Hats At a Saving of 200% Women May Buy at Wholesale Prices

Women of Atlanta are invited to inspect the largest and most exclusive line of Misses', Women's and Children's Hats in the South. This millinery sade with the South of the best merchants in the best Southern towns. (Silverman's is strictly a wholesale house, you know.) But trade conditions make it advisable to sell to you instead of shipping. Will you take advantage of this opportunity to save 200 per cent (two hundred, think of it) on every that you buy from us? We sell to you at wholesale prices—the same prices retail dealers have to pay. It is wonderful what a dollar will buy from our immense and stylish display. A dollar goes a long way at Silverman's. Buy your fall hat here and save the retailer's profit—you need it more than he does. More styles and slapes to select from than you will find in any other Atlanta store.

other Atlanta store.
You can get three hats here for the same money one would cost in a retail store

For the benefit of the ladies who can-not spare the time during the day, we will keep open until 9 o'clock every night.

The Fall Shoe Fashions for Women Shown at Muse's

If you have not the special shoe information you desire, the MUSE line will furnish it.

Our full window display of Fall and Winter Styles is a strong suggestion.

> The Shoes Shown Here Are the Shoes That Will Be Worn This Winter by the Women of Fashion

Shoes of such high character cannot miss the appreciation of the women of Atlanta.

The satisfaction in the Shoes supplied you here is such as cannot be excelled-and good reason-they do not make any better.

The New Shoe Styles

Show the Spanish-Louis heel on many fine Shoes. A very handsome Shoe has brocaded silk top, with patent vamp; another is cravenette and patent, patent and kid. An extremely smart Shoe is made entirely of dull kid.

There was a time when competitive saleamen hardly had a speaking acqualitance, but now there is the warmest spirit of friendably existing between all, and those working kindred lines seem to be the closer friends. We feel proud to be spoken of so kindly as above related, and hope we can continue to murit the compliment.

Ed S. Harrison, with the S. P. Rich-ards company, came in Saturday from a successful trip. Mr. Harrison is enjoying much better, health lately and his friends are predicting some records in sales now that the physical man has resumed his wonted good condition.

R. T. Jones, Editor, Constitution Firing Line, Atlanto, Ca.

You will no doubt be interested to know whether or not we can show any traceable sales from the advertising we are doing in the Firing Line of the Constitution. It is a pleasure dor us to inform you that we feel fully compensated, not only from direct inquiries concerning our line, but attribute some large cash sales through this means of advertising.

The Constitution evidently has a large cfrou-lation among the farmers and those interested in agricul tural implements, and for this reason we are taking advantage of advertising our labor-saving tools to the trade.

Wishing you continued success, we are,

Loose Tread Tax

Tread separation usually occurs close to

the breaker strip-an essential fabric used at the base of the tread in all standard tires.

We use a patented fabric, woven with hun-dreds of quarter-inch holes. The tread rub-ber, in its plastic state, is forced down through these holes. Then the tire is vulcanized en

Thus hundreds of large rubber rivets are formed to prevent tread separation.

"Look Around To Your Heart's Content-

You'll Surely Come Back" Your Studebaker dealer is not only willing, but glad, to have you "look around", after you have seen the Studebaker "SIX".

He means what he says. He feels perfectly safe.

There is nothing in the market that can win you away.

It is not easy for him, or for us, to tell the simple truth about the car without seeming to indulge in braggadocio.

Because the simple truth is bound to sound disparaging to competing cars.

The Question of Price
Let's assume that you do
"look around".
The first thing you discover
is that the Studebaker "SLX"
is in a price division all by
itself.

It's a conquering price—for a great car! At the new cost to consumers, Ford cars will be still more in evidence on every highway. Stop! Look! Listen! Watch the Fords go by - you can scarcely hear

Five hundred dollars is the new price of the Ford runabout; the touring car is five fifty; the town car seven fifty—all i. o. b. Detroit, complete with equipment. Oet catalog and particulars from Ford Motor Co., 311 Peachtree St., Atlanta.

PREMIER HAS DELIVERED

to date 91 % more cars than in the same period a year ago. None of the other leading high grade cars can show any such increase. Does not this show that the combination of a car with the features that the public wants, a car which represents the best value of any car in its class and with a good reputation, spells the maximum of success?

What better method is there for judging a motor car than from the service it is giving the owner? You can communicate with any PREMIER owner in this city and judge for yourself as to the quality of the PREMIER. These owners will give you evidence—evidence direct from those who know -evidence that covers all angles of motor car operation.

You can get from them the points that decide for you the efficiency of a car, and then judge for yourself. Talk with these owners, they will give you the reasons why there is a landslide in favor of the PREMIER, they will give you the reasons why the PREMIER is out-selling every other sixcylinder car not only in Atlanta, but throughout America.

Mechanically, a Marvelous Motor Car

WITHIN the next month or six weeks thousands of you who are reading this advertisement will buy your new automobiles. You have well-founded reasons for buying in the early Autumn. At this time the new models of all the leading manufacturers have been announced. You can choose your 1914 car intelligently. Then, too, the months of September, October and November offer the most delightful and exhibitating motoring season. It's the time of year when you can find greatest pleasure in an automobile, particularly in a new car. And when winter comes—unless you chance to live where roads, unfortunately, are purely a matter of seasons—an automobile gives you its most utilitarian service. Reasons enough for the Autumn purchase! But there's still another that's very important, particularly if you are a Paige purchaser. At this season our plant is at its highest efficiency.

Thousands of purchasers were disappointed at being unable to secure Paige cars during the past season. This could not be avoided. Orders poured in on our dealers during the Spring in such volume that the factory could not take care of them, and in view of the active demand right now it is reasonable to expect the same condition next Spring. Each Paige dealer is allotted a definite number of cars, and even with the treble capacity of our new factory we will not be able to increase these allotments. So now it he most logical time to place your order either for present or future delivery.

It seems like everyone, broadly speaking, knows the Paige "36." The success of this model throught the 1914 Paige "30."

As we Just takel, it seems like excrease of the Paige "36." The sheen only a forerunner to the assent tremendous success of the 1914 Paige "30."

Overland Orders for 1914 Are Pouring

Twenty thousand people ordering Overlands in 1913 were disappointed, although 40,000 cars were built and sold before July 1st.

Fifty Thousand Overlands will be built for 1914, but they will not supply the demand.

This is BIG NEWS to automobile owners and buyers.

If you have determined to buy an Overland you ought to be sure of your car. The only way you CAN BE SURE is to order early. COME IN and talk it over.

Overland Model 79 Is the Crowning Achievement Of Automobile Engineering

When a manufacturer builds a car so well that forty thousand are sold in one year without satisfying the demand, you will admit that QUALITY and VALUE uphold the success.

FIVE HUNDRED Overlands are owned IN ATLANTA today. Every Atlanta man or woman who owns an Overland is an enthusiastic Overland booster. In an Overland your family is SAFE and DISTINGUISHED.

Safety and style are the REQUIREMENTS for a car in a city of homes like Atlanta. Given the SAFETY, EXCLUSIVENESS and STABILITY of the beautiful Overland, in addition to its ECONOMY of operation and DURABILITY under the hardest stress, you can realize the wonderful popularity of this first, foremost and finest automobile.

A Notable Sale of Real Laces

At Slightly Above the Bare Cost to Import

More Real Laces than we have ever owned at lower prices than we have ever asked

A Remarkable Event worthy the earnest attention of future brides and every woman interested in Real Laces

Real laces like real pearls are an investment—they never go out of fashion. And like other real and worthy things, real pearls and laces are seldom to be had underprice. That we have assembled upwards of

\$27,000 of Real Laces to Sell for About \$18,000

is significant of this store's achievements in the commercial world. Importers burdened with heavy stocks have learned to turn to Rich's to lighten their loads. There, in a nutshell, is why we can sell real laces at just slightly above the bare cost to import. Compared with usual prices, savings average a third.

Since few stores seldom carry more than \$1,000 worth of real laces, our present lavish assortments permit us to make a display, probably unprecedented in the South. We have at least from ten to twenty times the stock usually carried in any Southern store.

Southern store.

"The showing includes Princess, Lierre, Carrickmacross, Rose Point, ge, Filet, Duchess, Applique and many other real laces. Choose from Edges, flournings, galoons and motifs at \$1.75 to \$150,00 a yard. Neekwear, including collar and cuff sets, berthas and yoke pieces at \$7.50 to \$100. Bridal veils \$75 to \$225.

Chantilly & Shadow Flouncings at Half Price

o secure these beautiful and fashionable laces at the start of the season at half is a rare hit of good luck. Our lace buyer, however, has a faculty of being when the "plums" are being distributed. She got these laces when in New importers' close out lots, hence the halved prices antilly and shadow flouncings are in high vogue for dancing frocks, tunies and ner of dress trinimings. You're a Lazy Looking Loafer

Standing on the Curb

You can't see OPPORTUNITY.

Opportunity never shows herself to the man who can't KEEP BUSY.

Opportunity is the EMPLOYMENT AGENT of BIG BUSINESS. The world needs men; but it wants MEN. Strong-hearted, quick-brained men who see BEYOND the tools they use to the FINISHED TASK are the marks of Opportunity.

Such men have no time to stand IDLE on the curb while INDUSTRY swirls around them.

Study the job you hold. Study the results of your day's labor. Have you bettered yourself and your firm today? Have you added to the quality of the

If you are in a progressive business, and building it for steady advance, look up to better things where you are. If you do not feel bigger and stronger in business for each day's work, GET ANOTHER job. A Constitution WANT AD will find a place where you fit.

If you are an employer, you do not have to advertise for the kind of men that loaf all day on the curb. You can pick them up as you drive along, and the first hard task will drive them out of your place.

Good men keep busy. You must advertise for them. A Constitution WANT AD goes where you cannot travel. It PENETRATES the HOMES of the men you seek. Send it along and watch it work. Telephone a Want Ad today.
